One day equator experience in Uganda.

At 7:30 am, you will be met by a guide/driver from the Safari Chapter Uganda and you will embark on a journey one of the places where the equator crosses Uganda. This morning, you will be met by a guide/driver from the Safari chapter Uganda and embark on our journey by road to one of the places where the Equator crosses Uganda. We will drive along Masaka highway for at least four hours to get to the equator.

The Equator is located in Kayabwe, Mpigi District, about 72 kilometers from Kampala city, the capital of Uganda. Once here, you will get to stretch as and experience the two hemispheres that split the earth. There will be a tour guide who will at any time of the day explain how and why the equator is truly crossing through there. There will be performances by locals to show the Coriolis effect which happens when water is placed in a basin on the equator. This experience is not to be missed. You will also take photos on either side of the world.

Please note that you will experience warm temperatures while at the Equator as you stand in the middle of the world. Please remember to have a sunscreen for your skin.

You can have lunch at one of the local restaurants in the area. After your lunch, you will get to visit the number of structures that have been set up around the area of the equator with so many amazing crafts and art pieces from the craft shops. You will get yourself a number of products from the gallery antique and the Aid child gallery. You will be able to carry a souvenir for your family and friends on your way back.

You will be transferred back to your place of accommodation.

Cost: US$120 per person including meals.
